

2014 AP Student Enrollment vs Scores

This 9-page AP report provides information about our Advanced Placement performance since 2003. The column "Total Students" represents the total enrollment in the course each year. The column "Total Exams" shows how many students took the AP exam for the course. The "Mean Score" is reported on a 0-5 scale, with 3 being the minimum score that may be considered passing by some colleges and universities. The mean score is the average of the scores earned by those taking the exam and does not reflect any data from those taking the course but not taking the exam.

AP Student Enrollment vs Scores

AP Music Theory			
Year	Total Students	Total Exams	Mean Score
2003	0	0	0.00
