

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the [Return on Investment of Afterschool Programs in Pennsylvania](#) study determined that for every dollar invested in after-school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link to PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students, examine disproportionate impacts on specific student groups, and highlight the LEA's promising practices in supporting students' needs since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in after-school programming. Include a brief description of the indicators used in the decision-making process.

Students who may be identified for inclusion in after-school programming include and are not limited to students who didn't recoup to where they were expected to be performing on their IEP goals, English Learners, Title I students, and Kindergarten students who are identified for needs-based supports.

Section: Narratives - After-school Program

After-school Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide after- school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children with Disabilities	Academic Growth	100	We will progress monitor each student and that will allow us to know how effective the intervention has been for our students, including student performance toward IEP goals.
English Learners	Academic Growth	40	We will progress monitor each student and that will allow us to know how effective the intervention has been for our students, including student performance toward EL goals.
Children with Disabilities	Emotional Wellness	25	We will progress monitor each student and that will allow us to know how effective the intervention has been for our students, including student performance toward IEP goals.

3. Describe the evidence-based resources that will be used to support student growth during the after- school program.

We will progress monitor each student and that will allow us to know how effective the intervention has been for our students, including student performance toward IEP and EL goals. The LEA completes a data analysis of student academic growth based on numerous assessments including the following evidence-based resources: K-2 - DIBELS, GRL 3-5 - NWEA, PSSA, and Keystone. The LEA completes a data analysis of EL growth based on numerous assessments including ACCESS, NWEA, PSSA, Keysones and DIBELS. Additionally, qualitative data is collected through walk throughs. Panorama SEL survey will be used to assess the success of the SEL within the district.

4. Describe the staff that will provide the after- school program (i.e., Internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
25	Internal	Implementation and oversight of after-school program

- a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

- b. The LEA assures it understands it is responsible to ensure that all after-school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the after-school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Student IEP	On-going	Students will demonstrate growth toward IEP goals.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
DIEBELS	On-going	Students will show growth at mid-year using DIBELS Composite Score and/or Guided Reading Levels and Lexile levels. ELs will show growth on DIBELS or benchmark assessments.
ACCESS	On-going	EL students will demonstrate growth on their WIDA composite score.
Panorama SEL survey	Annual, as needed	Panorama SEL survey will be used to assess the success of the SEL within the district

6. How will the LEA engage families in the after-school program?

Opportunities will be provided for families to support students participating in the after-school program, including providing resources for families.
